

ARTURO VELAZQUEZ

Developer

Software Engineering

2024

PROFILE

- I am a software engineering student
- I always seek good order and management. I strive to learn and adapt to what I need to complete my assignments.
- My goal is to be a proficient developer and student simultaneously, as I aspire to learn within my capabilities. I am excited about the opportunity to work on projects.

EXPERIENCE

Websites

2021 – CURRENTLY

I have been creating websites over time with various themes and for personal and external projects.

Mobile Apps

2023 – CURRENTLY

I have developed several mobile applications using different programming languages such as Kotlin, Flutter, Ionic, etc. However, I excel more in Kotlin.

APTITUDES

- Commitment to quality
- Collaborative work
- Innovation and creativity
- Problem-solving abilities
- Adaptable and open to learning

ACADEMIC TRAINING

Universidad De Colima

ingeniería en Software

2021 – 2025 (IN PROGRESS)

I am currently pursuing a degree in software engineering.

Universidad de Colima

Analista Programador - Bachillerato

2018 – 2021

When I entered high school I chose a technical career as a programmer analyst, thus beginning my path in the world of programming from an early age.
